HAN-STAND

Foot Valve Stand

The innovative HAN-STAND Foot Valve Stand is your hassle-free solution for a full-flow cottage water system. Using a unique, weighted base and three stabilizers, the HAN-STAND is designed to support your foot valve 18" off bottom. Wave action or an uneven lake floor won't prevent the HAN-STAND from "Keeping it Up".

The included Hanflo Foot Valve and Filter Sock provides clean, unrestricted flow of water. No more valve clogging! For winterizing and servicing, the Hanflo Quick Disconnect Poly Pipe Fitting provides for easy installation or disconnection of the HAN-STAND with a simple turn of the union nut. A fast, easy, leak-free, corrosion-free connection.

Installation/removal and identification to lake travellers of the HAN-STAND is made easy with the included float and rope. The HAN-STAND is manufactured from high quality, engineering grade plastics, ensuring a reliable, long-lasting foot valve solution.
